### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with and message by Patricia Costanzo on May 3 & 5, 2006.

The application has been amended as follows:

Claims 19 and 20 are canceled.

REMARKS: Cancellation of claim 19 and 20 overcome the remaining prior-art rejection of these claims in the final Office Action of March 2, 2006.

2. The following is an examiner's statement of reasons for allowance: Claims 1-18 are allowable because the prior art of record does not suggest a self-illuminating fabricated solid object assembly including at least one receptacle embedded within a fabricated solid object, the receptacle having at least a first end and second end, the first end of said receptacle adapted to encompass the second end of the at least one optical fiber, the second end of the receptacle operatively coupled with the aperture open to an outer surface of the solid object, the first end of said fiber arranged to terminate at said at least one visually exposed surface of the fabricated solid object.

3. In regards to the drawings filed September 13, 2003, it is observed that the figures appear to be informal, though not objectionable. It is suggested to provide formal drawings for a more formal illustration of the invention, prior to or by the payment of the issue fee. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
